

100 Years Of Expertise

Pudumjee Hygiene has 100 years of expertise in speciality paper manufacturing that is best reflected in the imaginative differentiation of tissues. Differentiating factors that lend singularity and uniqueness to each tissue are the base sheet used, the format, number of ply, wet strength, bulk etc. Our hygiene solutions are manufactured to exacting specifications to suit not only their end use but also disposal methods. Hence, our toilet rolls disintegrate in water and towels remain strong in the kitchen even when wet. Facial tissues do not shred and napkins absorb twice their weight in water.

Meeting Global Standards

The use of tissue paper products in contact with food supplies sets higher requirements for the chemical and production processes. This applies to a wide range of tissue products for professional and home use. Careful control of the production process is the key to ensuring high microbiological quality and hygiene standard of the end products. Greenlime towels, napkins, toilet tissues and facial tissues use safe, high-quality food grade additives that are FDA-compliant.

Our tissue products are manufactured using imported or recycled pulp in advanced hands-free manufacturing units using FDA-compliant raw materials. The tissue is totally chlorine-free (TCF), hygienic and bacteria-free, and completely safe to use with food products and on the skin.

Our natural range of towels and tissues is made from 100% recycled fibres derived from high-quality, imported waste-paper grades and processed using environment-friendly hydrogen peroxide in pulp bleaching. We procure our base pulp from sustainable resources and not from wood cultivation, making our tissues environment-friendly.

Our dispensers can be a valuable part of any HACCP plan with mechanical hands-free features preventing cross-contamination. Hazard Analysis Critical Control Point (HACCP) is a global process control system designed to enhance food safety by identifying and preventing physical, chemical and biological hazards in food production.

Being a full member of ISSA, has given us access to global hygiene standard resources and recognition in the hygiene business as the most trusted business partner.

Pudumjee Hygiene has striven to earn prestigious ISO certifications for its units, making it the only tissue company in India with 3 ISO certificates

- ISO 9001: 2000 Certified for our Quality Management Systems (QMS)
- ISO 14001: 2004 Certified for our Environmental Management Systems (EMS)
- ISO 22000: 2005 Certified for Food Safety Management Systems (FSMS)

Available All Round The Year

Thanks to our own tissue-manufacturing and converting facilities, we assure all-year-round ready supply of our products and services. We have branch offices in all major cities of India. Our strong and efficient distribution network offers unbeatable service to our customers, making sure they have adequate stocks whenever required. Our unique on-call delivery system ensures we are there to cater to emergency needs of our clients.

Hygiene Solutions for the Retail Consumer

More than anything else, tissues come in contact with our food and skin in our day-to-day life. Hence, it is imperative that they are 100% safe. That is precisely what Pudumjee Hygiene Private Limited promises and delivers. Our tissues are totally safe, as a result of our chlorine-free manufacturing process and FDA-compliant raw materials. Among what we have to offer are innovative products like kitchen roll stands and toilet seat covers for protection in common toilets.

Pudumjee Hygiene's soft and premium tissues now proudly occupy shelf-space in most modern-format outlets in major cities and towns in India. Regular consumer feedback and market data from research agencies drives the evolution of all our products.

Being an ISO-certified company, Pudumjee Hygiene adheres to best Quality, Environment and Food Safety Management Systems. All the inputs for manufacturing and packaging our tissue products are food-grade in compliance with FDA norms, making our products 100% safe on skin and food. ISO certification also opens up our units for secret inspections, keeping us ever-vigilant to serve our customers with assured quality products.

greenlime®

Facial Tissues — At Your Disposal Any Time, Anywhere

Greenlime's facial tissues with their super-soft feel and ideal wet-strength, do not shred on skin leaving behind a perfectly clean wipe and rejuvenated spirit. The unique flower embossed pattern makes the tissues extra fluffy and super absorbent. Pocket tissues are available in a convenient-to-carry, handy pack that fits snugly into a purse or pocket. Greenlime's cologne wet wipes offer instant freshness and hygiene. They clean, cool and moisturise, and are safe on all skin types.

Salient Features (Facial Tissues)

- Hygienic, disposable facial tissues
- Premium-quality, 100% virgin fibre tissue paper for better strength and softness
- Ply bonding with crimping prevents ply separation
- Ideal to wipe sweat and dirt to keep skin dry and fresh
- Absorbent tissue — ideal for use during cough and cold, dab small cuts and bruises hygienically, wipe off ink spillages on study desk

Salient Features (Wet Wipes)

- Enriched with natural extracts to protect skin
- Super-soft and thick wipes for tender skin
- Keeps the user fresh anywhere

Kitchen Towels — Your Best Friend in the Kitchen

Greenlime's kitchen towels are 2-ply, extra-thick sheets known for their high wet-strength and excellent absorbency. They are ideal for a variety of needs at home. The unique cushion-design embossing provides better bulk, softness and absorbency. This top-quality tissue product comes with handy dispensers (either wall mounted or portable metal stand formats) for easy and convenient use and guarantee a super-clean kitchen. Kitchen towels not only wipe big spills and absorb excess oil, but also preserve the freshness of fruits and vegetables, making them your best friend in the kitchen. They are available in roll and precut sheet forms. Branded inner cores on the rolls are a mark of quality.

Salient Features (Kitchen Towels)

- More absorbent, yet soft • High wet strength • Don't tear easily while wiping hands

Salient Features (Portable Metal Stand)

- Detachable steel rod for easy tearing • Rubber coated, broad base for stability • Sleek, long-lasting metal frame

Salient Features (Wall-mounted ABS plastic dispenser)

- Long-lasting tough ABS body • Flexible sides to conveniently slide in the roll • Holds the roll firmly for easy tearing

Toilet Rolls and Toilet Seat Cover — Say No to Infections

Greenlime's toilet rolls are made with advanced, hands-free technology and are safe on the skin. These 2-ply rolls are extremely soft, and disintegrate quickly in water to prevent clogged drains. Moist skin breeds bacteria. Hence, it makes very good sense to keep your skin dry with toilet tissue sheets and stay away from infections. Branded inner cores on all Greenlime rolls are a mark of quality.

In a high-traffic, common washroom the single biggest contributor to the spread of infections is the common toilet seat. Pudumjee Hygiene's disposable toilet seat cover ensures protection from such infections. This innovative product not only ensures complete personal cleanliness, but also a hygienic and germ-free toilet seat every time you use it.

Salient Features (Toilet Roll)

- Extremely soft tissues; safe on the skin • Disintegrate quickly in water; hence, no clogged drains

Salient Features (Toilet Seat Covers)

- Easy-to-carry pocket packs • Made from environment-friendly recycled paper

Liquid Handwash and Hand Sanitiser — Complete Hand Hygiene

Soap bars breed bacteria and transmit infections. Pudumjee's liquid handwashes offer a healthier and more hygienic alternative. Its pH balance formulation ensures that it is tender on the hands but tough on germs, and leave hands clean, soft and fragrant. Further, even visibly clean hands can carry germs and spread infections. Hence, they don't just need to be washed, they need to be sanitised. Pudumjee's instant hand sanitiser is particularly useful when one is on the move, and soap and water are not readily available.

Salient Features (Liquid Handwash)

- PH-controlled formulation protects skin
- Enhanced with moisturiser, which helps condition skin
- Pleasant fragrances
- Lathers well in hard water

Salient Features (Hand Sanitiser)

- Kills 99.9% germs on your hands
- Enhanced with moisturiser to keep your hands soft and smooth
- Pleasant fragrance keeps your hands refreshed
- Suited for all skin types
- Absolutely safe and gentle enough to use several times a day

Not Just Products, Complete Hygiene Solutions

Greenlime Mini Toilet Roll Dispenser

Toilet rolls mounted on rods tend to become wet and dusty, remain exposed to unclean and contaminated hands and become a breeding ground for harmful bacteria. Pudumjee offers closed toilet roll dispensers in a variety of sizes, in robust ABS plastic that protects rolls from moisture and bacteria keeping them 100% clean and dry.

Salient Features

- Pilferage-proof locking mechanism
- Space saving, compact and hygienic design
- Low maintenance
- Available in colours—white, blue and green

Liquid Hand Wash Dispenser

Keeping our hands clean is an essential part of personal hygiene. And, there is nothing like being able to do it in an easy and reliable manner. Liquid handwashes in attractive dispensers are the answer to modern-day hand hygiene needs.

Salient Features

- Closed design, contamination-free usage of liquid handwash
- Long-lasting, tough ABS body
- Non-leaky, non-messy, rust-proof system
- Easy installation, low maintenance and easy-to-refill
- See-through window panels allow easy monitoring of refills

Greenlime Odour Neutraliser

Pudumjee Hygiene's automatic, user-friendly and battery-operated odour neutraliser delivers freshness through the latest technology to keep the ambience ever fresh. Ideal for modern-day washrooms, the device is programmable for up to 3 time-periods a day, with intermittent intervals to optimise fragrance when it is needed the most, thus fighting bad odour and keeping the environment refreshingly clean and fragrant throughout the day. It is a boon for other relatively less ventilated spaces.

Salient Features

- Bright LCD screen
- Easy refill setting of 30/45/60 days
- Up to 3,000 metred sprays per refill
- Effective in room sizes of up to 6,000 sq. ft.
- Runs on 2 X 'C' cell batteries that last up to 3 years
- Keyed lock mechanism for added security
- Choice of exquisite fragrances

Use The Right Tissue For The Right Job

Would you use this as a toothbrush?

Would you wear this on your wrist?

Would you use this as a handkerchief?

Different tissues for different issues: For tissues to deliver a satisfying experience, they must be manufactured using the correct base sheets to meet the requirements of different usages. Greenlime tissues are specially designed with different base sheets to give a 100% tissue experience.

The 100% kitchen roll performance: Greenlime kitchen rolls have extra ply strength, high wet strength and do not shred during usage. They are highly absorbent to help soak up liquids and moisture.

The 100% facial tissue performance: Greenlime facial tissues have extra fluffiness, are super soft, and tender on the skin. Their non-sticky, shred-free performance on the body leaves you with a clean, wholesome feeling and lingering freshness.

The 100% toilet roll performance: Greenlime toilet rolls have low wet strength, designed to disintegrate quickly in water and prevent clogging of toilet drains.

Food and skin-safe: All the inputs for manufacturing and packaging our tissue products are food-grade in compliance with FDA norms and chlorine-free, making our products 100% safe on skin and food.

Tissues for every reason: Only Greenlime offers you the widest choice of tissues — convenient pocket tissues, cocktail serviettes, party napkins, pop-up napkins, kitchen rolls, facial tissues, toilet rolls and personal toilet seat covers.

Assured of Partnering With the Best

Pudumjee does not believe in merely producing goods to meet specific hygiene-related needs. It is our aim to offer 'hygiene solutions' to promote a cleaner and more hygienic lifestyle. That is what makes us go everywhere our consumer goes — not just grocery stores, for instance, but also sanitary-ware outlets.

We have gone that extra mile in disseminating useful additional information to consumers like the tissue-testing method on our packs. Further, we also put up customised stands, posters, demo tables etc. at retail outlets to educate our consumers.

Our promoters are often present at retail outlets along with these collaterals to interact with consumers, provide them with any additional info they may seek, clear their doubts and answer their queries. We have also educated consumers belonging to diverse user segments, viz. beauty parlours, gyms, small offices and shops, etc. about our products.
