

100 Years Of Expertise

Pudumjee Hygiene has 100 years of expertise in speciality paper manufacturing that is best reflected in the imaginative differentiation of tissues. Differentiating factors that lend singularity and uniqueness to each tissue are the base sheet used, the format, number of ply, wet strength, bulk etc. Our hygiene solutions are manufactured to exacting specifications to suit not only their end use but also disposal methods. Hence, our toilet rolls disintegrate in water and towels remain strong in the kitchen even when wet. Facial tissues do not shred and napkins absorb twice their weight in water.

Meeting Global Standards

The use of tissue paper products in contact with food supplies sets higher requirements for the chemical and production processes. This applies to a wide range of tissue products for professional and home use. Careful control of the production process is the key to ensuring high microbiological quality and hygiene standard of the end products. Greenlime towels, napkins, toilet tissues and facial tissues use safe, high-quality food grade additives that are FDA-compliant.

Our tissue products are manufactured using imported or recycled pulp in advanced hands-free manufacturing units using FDA-compliant raw materials. The tissue is totally chlorine-free (TCF), hygienic and bacteria-free, and completely safe to use with food products and on the skin.

Our natural range of towels and tissues is made from 100% recycled fibres derived from high-quality, imported waste-paper grades and processed using environment-friendly hydrogen peroxide in pulp bleaching. We procure our base pulp from sustainable resources and not from wood cultivation, making our tissues environment-friendly.

Our dispensers can be a valuable part of any HACCP plan with mechanical hands-free features preventing cross-contamination. Hazard Analysis Critical Control Point (HACCP) is a global process control system designed to enhance food safety by identifying and preventing physical, chemical and biological hazards in food production.

Being a full member of ISSA, has given us access to global hygiene standard resources and recognition in the hygiene business as the most trusted business partner.

Pudumjee Hygiene has striven to earn prestigious ISO certifications for its units, making it the only tissue company in India with 3 ISO certificates

- ISO 9001: 2000 Certified for our Quality Management Systems (QMS)
- ISO 14001: 2004 Certified for our Environmental Management Systems (EMS)
- ISO 22000: 2005 Certified for Food Safety Management Systems (FSMS)

Hygiene Solutions for Kitchens and Cafeteria

Foods and beverages can get contaminated quite easily. Human hands are the carriers of innumerable germs. Keeping hands and kitchen surfaces clean is absolutely imperative. Our super-absorbent kitchen rolls deliver a non-messy performance by soaking up heavy spills. They are also good at preserving vegetables and fruits. Pudumjee Hygiene offers a range of automatic, auto-cut tissue dispensers, napkins and hand sanitisers that meet the stringent hygiene demands of this industry.

Being an ISO-certified company, Pudumjee Hygiene adheres to best Quality, Environment and Food Safety Management Systems. All the inputs for manufacturing and packaging our tissue products are food-grade in compliance with FDA norms, making our products 100% safe on skin and food. ISO certification also opens up our units for secret inspections keeping us ever-vigilant to serve our customers with assured quality products.

Business units from the food processing industry using ISO 22000 certified products stand a better chance of bagging the coveted HACCP and ISO 22000 certifications for their units, which will add value to their brand image.

Available All Round The Year

Thanks to our own tissue-manufacturing and converting facilities, we assure all-year-round ready supply of our products and services. We have branch offices in all major cities of India. Our strong and efficient distribution network offers unbeatable service to our customers, making sure they have adequate stocks whenever required. Our unique on-call delivery system ensures we are there to cater to emergency needs of our clients.

Auto-cut Roll

Kitchen Rolls

Greenlime's kitchen roll dispensers are a handy help in meeting the heavy wiping needs of kitchens, pantries and cafeterias. Our innovative and attractive range of dispensers provides quick and easy access to hygiene in the kitchen.

Centre Pull Hand Towel Dispenser

Ideal for busy kitchens in large food-processing and manufacturing units, these robust ABS plastic dispensers offer the best wiping solution. In complete compliance with HACCP norms, these dispensers fully cover the tissue roll, allowing the user to touch only what they use; thus ensuring complete hygiene and preventing cross-contamination.

Salient Features

- Large capacity, completely closed dispensers
- Pre-perforated sheets allow smooth and easy pulls
- Controls wastage as sheet lengths are preset
- Locking system avoids pilferage

Auto-cut Hand Towel Dispenser

This takes kitchen hygiene to a higher level as the towel is automatically cut at a preset length, preventing the dispenser itself from being touched by contaminated hands. Besides, the neatly dispensed tissue sheets can be used to serve food on the table in a presentable and hygienic manner.

Salient Features

- Long-lasting, tough ABS body
- Closed design prevents germ spread
- Easy-to-load
- Strong and sturdy design
- Cost-effective — paper towel is automatically cut off at your pre-set length
- Hygienic — only the towel used, is touched
- No wastage — even last sheet of towel is used
- The durable dispenser has simple harmonious lines, which also reduces the possibility of injury

Kitchen Roll Stand

These stylish, powder-coated dispensers with a strong metal frame are easy to install, make the most of available space, and are low on maintenance. Their sharp self-installed cutter facilitates easy cutting of kitchen rolls.

Salient Features

- Powder-coated, strong metal frame
- Easy-to-install, low on maintenance
- Extremely easy to cut the roll due to a sharp self-installed cutter
- Fits all types of kitchen rolls

Product Specifications

Code	Description	Dimensions (in cms)	Capacity (in mtrs)	Case Count
0741038	Greenlime Centerpull Dispenser – Smokey Grey	24.5 w x 21.5 d x 37.5 h	300–350	1 unit

07410016	Greenlime Utility Roll Stand—7.5"	36 w x 28.5 d x 23.5 h	225–300	1 unit

Greenlime's extra-thick, super-absorbent tissue sheets in roll form can do much more to keep your kitchen, pantry and cafeteria spotlessly clean, other than being instrumental in preserving the freshness of vegetables and fruits, and also wiping your hands in a more hygienic way. They are ideal to clean heavy spills and messes.

Centre Pull Rolls

These large rolls come with collapsible inner cores ensuring smooth and easy pulls and are ideal for high-traffic, rough-use situations.

Auto-cut Rolls

These rolls that are suited to busy kitchens ensure minimal wastage, more convenience and better hygiene. The tissue sheets are cut at a preset length dispensing a neat sheet that can be used to serve food in a presentable manner.

Salient Features (Autocut and Centrepull Rolls)

- Branded inner core is a mark of quality and satisfaction
- Available in 260 and 300 metre lengths to suit varied customer needs
- Low wastage
- Ideal wet-strength

Kitchen Rolls

This high-absorption tissue product is ideal to clean spills and messes, and guarantees a super-clean kitchen.

Salient Features

- Superior wet strength
- One Industrial Roll = 20 standard Kitchen Rolls
- Available in 30–300 metres to suit small / large kitchens
- Branded inner core—mark of quality and satisfaction

Napkins and Serviettes

Greenlime
Dinner Serviettes

Greenlime
Snack Napkins

Cocktail Napkins

Pop-up Napkin ABS
Plastic Dispenser
and Box Pack.

Greenlime's napkins and serviettes are totally safe on food and skin, and specially designed to serve your hygiene needs in different ways. Napkins, which are made of 1-ply single-tissue sheets, are ideal for small wipes. The relatively thicker, 2-ply serviettes, on the other hand, are a more presentable and hardworking option for lavish parties.

Dinner Serviette

The dinner serviettes are ideal on the dining table. Available in attractive, embossed patterns, these 2-ply, relatively larger sheets are ideal to support dinner plates and wipe bigger spills. They are a more hygienic alternative to cloth towels. Also available in a non-woven variant.

Snack Napkins

The super-soft and super-absorbent snack napkins are totally safe on food and skin, and are a handy accompaniment any time you have a snack — indoors and outdoors. They are available in attractive, embossed patterns and printed designs. Available in 1 ply and 2 ply.

Cocktail Napkins

The super-soft cocktail napkins are a must on the table at your cocktail parties, kitty parties and small meetings. These convenient and handy napkins are available in attractive, embossed patterns and printed designs. Available in 1 ply and 2 ply.

Salient Features

- Luxuriously soft, white tissues
- Hygienic and disposable
- No harmful inks — 100% safe
- Makes dining table look more presentable
- Wide variety to suit ambience and mood
- Doesn't tear off easily while wiping hands

Facial Tissues

Facial Box

Cube Box

Wet Wipes

Greenlime's facial tissues with their ideal wet-strength leave behind a perfectly clean wipe and rejuvenated spirit. The 2-ply, 100% virgin fibre tissues are luxuriously soft with more bulk to caress your soft skin without shredding on it.

Place them strategically at every nook and cranny of your enterprise like the reception area and lobby, work desks, the conference room, etc. to make hygiene more easily accessible at every corner of your enterprise at all times.

Pudumjee offers varied sizes and shapes to suit the needs of all spaces, from a large, flat box to mini cube boxes, vertical hexagonal boxes, and also pouch packs, to fit into your customised dispensers. We also have a special car tissue box that fits into the car's side door pockets making the tissues easily accessible to the driving seat.

Salient Features (Facial Tissues)

- Ideal to wipe sweat and dirt to keep skin dry and fresh
- Absorbent tissue — ideal for use during cough and cold
- Ply bonding with crimping prevents ply separation
- Premium-quality 100% virgin fibre tissue paper for better strength and softness
- Dab small cuts and bruises hygienically
- Wipe off ink spillages on study desk

Salient Features (Wet Wipes)

- Enriched with natural extracts to protect skin
- Super-soft and thick wipes for tender skin
- Keeps the user fresh anywhere

Hand Sanitising Solutions

50 ml 500 ml

Greenlime Pump and Pouch Dispenser and Refill

5 litres

Just 2 drops kill 99.9% germs on hands
No soap or water required

The importance of a hand sanitiser in a kitchen or pantry can hardly be over-emphasized. Hands that handle foods need to be absolutely clean and germ-free to prevent contamination and spread of disease. Greenlime's instant hand sanitiser meets this specific need in the most reliable way.

Instant Hand Sanitiser

Even visibly clean hands can carry germs and spread infections. Hence, they don't just need to be washed, they need to be sanitised. This sanitiser is particularly useful when one is on the move, and soap and water are not readily available. The 50 ml pocket-packs ensure your hands are 100% safe everywhere. The bulk packs with dispensing pump bottles ensure safe and hygienic enterprises especially in hospitals, clinics and food processing industries. Pudumjee offers a pump and pouch dispensing system for easy and convenient use of sanitisers in hospitals, clinics, wellness centers and workplaces to prevent the spread of infections. Greenlime hand sanitisers are available in a choice of odourless and mild fragrances to appeal to varied consumer groups.

Salient Features

- Just 2 drops kill 99.9% germs on hands
- Enhanced with moisturisers that keep your hands soft and smooth
- A pleasant fragrance keeps your hands refreshed
- Greenlime Sanitiser is suited to all skin types
- This sanitiser is safe and gentle enough to use several times a day
